www.kingseafood.biz

PT. Hatindo Makmur is a leading exporter and processor of fresh and frozen seafood in Indonesia. Our headquarter is in Benoa, Bali.

Seafood has been our passion and way of life. For years, PT. Hatindo Makmur have been supplying quality seafood products to the international market. Our products such as : Yellowfin, Bluefin, Big eye, Albacore Tuna, Swordfish, Mahi-mahi, Marlin, Skipjack, Oilfish, Red Snapper, Grouper & Crimson Snapper. With the right experience, professional staff and as an international standard processing plant, we continuously strive to provide the very best of seafood products for our clients.

To improve competitiveness in the global market that growing rapidly, where quality and food safety has become a competitive side for the food industry, as well as the publication of the standard systems that ensure food safety for the products of a company, PT. Hatindo Makmur use, implement and maintain a Food Safety Management System based on HACCP and BRC (British Retail Consortium) standards.

PELAGIC FISH PRODUCT

Pelagic fish live near the surface or in the water column of coastal and ocean waters, but not on the bottom of the sea. They can be contrasted with demersal fish, which do live on or near the bottom, and reef fish which are associated with coral reefs.

DEMERSAL FISH PRODUCT

Demersal fish live and feed on or near the bottom of seas - the demersal zone. In coastal waters they are found on or near the continental shelf, and in deep waters they are found on or near the continental slope or along the continental rise. They can be found around seamounts and islands. Demersal fish fillets contain little fish oil (1-4 percent).
